

Genocide a word full of death;
Remember how this all began.
Began on an April day in 1994,
Began with Hutus,
Began with presidential death,
Began with anger.

Remember how it happened.
Hutus killed people,
Brutally with violence that was fast-spread.
Tutsi were killed,
With no warning.

Remember who died.
800,000 dead,
In the short span of 100 days.
People with family,
People with friends,
People with kids.

Remember what was lost;
Remember the Rwandan Genocide.
